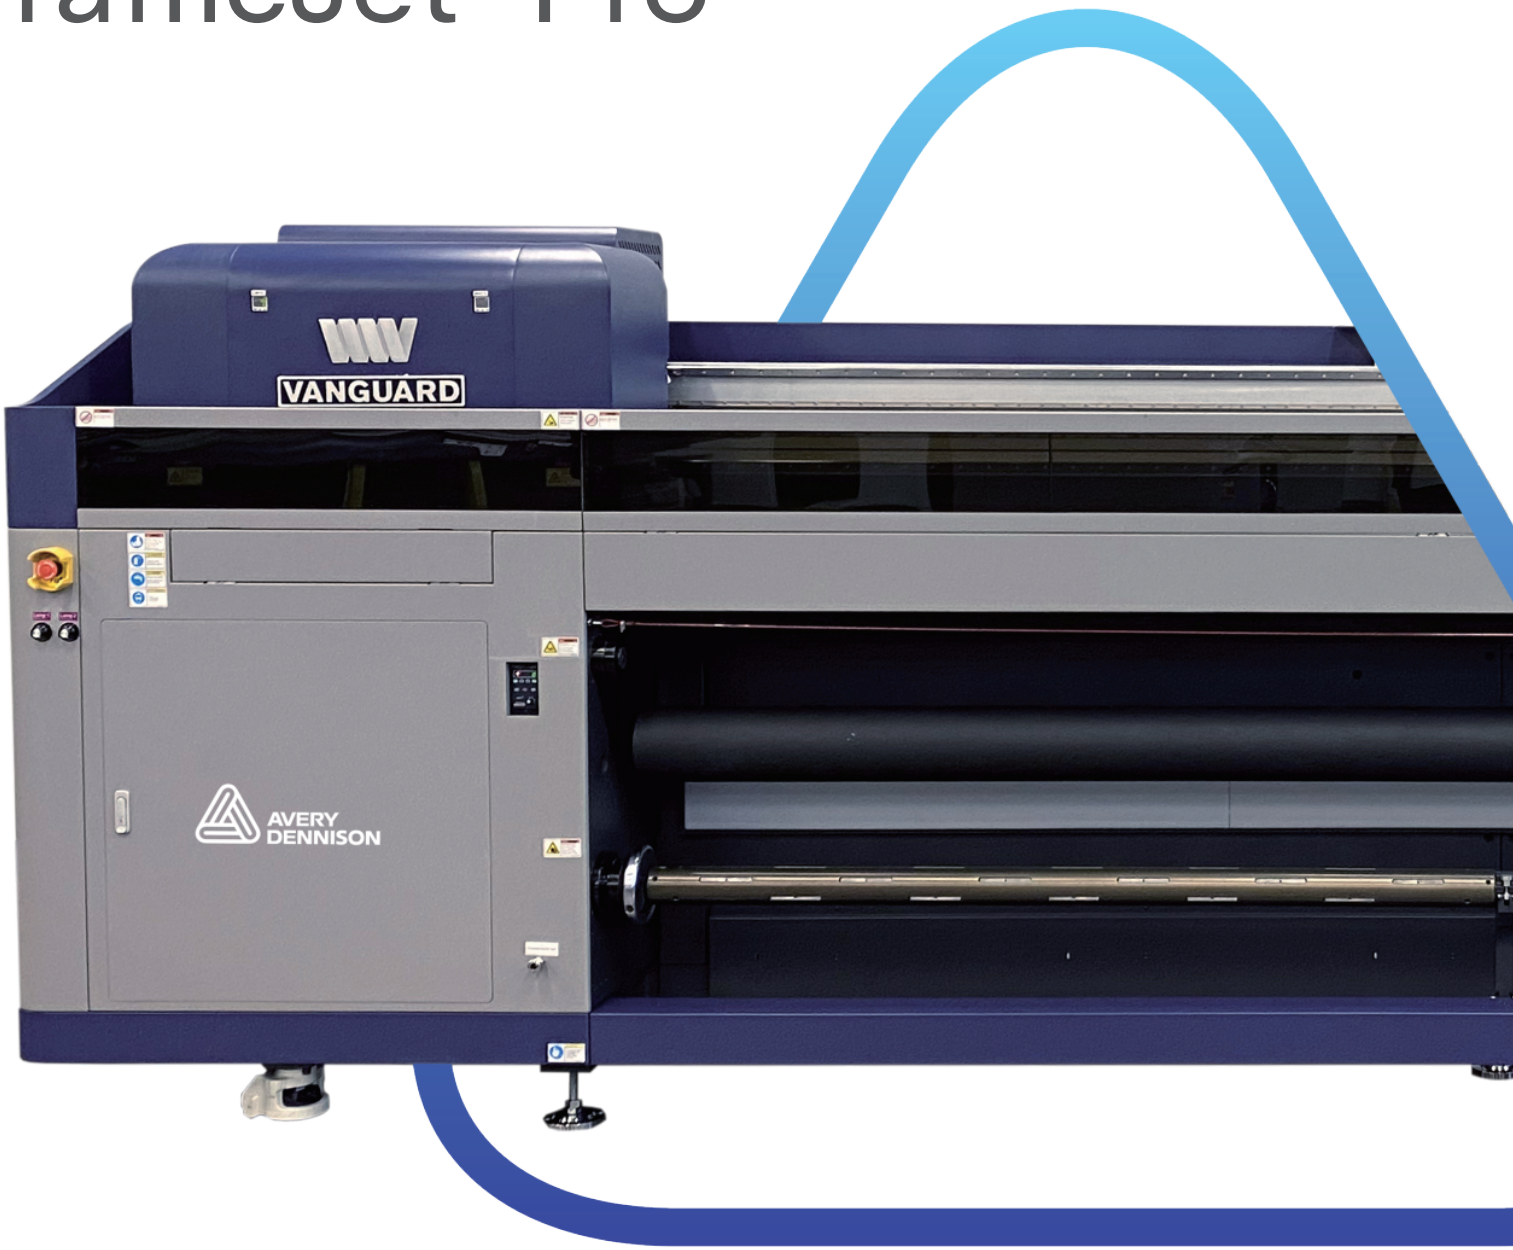
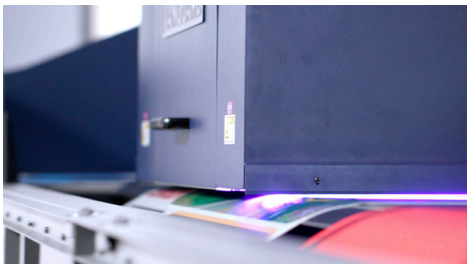
Digital Printing: TrafficJet™ Pro





TrafficJet™ Pro

Inspired by industry demand for sustainable traffic sign production and improved sign durability, TrafficJet Pro eliminates the traditionally wasteful and hazardous screen-printing process. With print quality and service excellence you've come to expect from Avery Dennison, TrafficJet Pro is now the most productive traffic sign printing system and continues leading the digital print revolution.

Operational Efficiency

→ Industry leading print speed
→ Up to 680FT² (63M²) / hour with dual roll
→ Up to 470FT² (43M²) / hour single roll
→ Supports instant lamination after printing
→ Avery Dennison provides all media, inks, training, and support services

Printing Versatility

→ Avery Dennison reflective and non-reflective roll media
→ Simultaneous traffic and custom color printing
→ 100YD bulk rolls reduce changeover down time

Superior Durability with OL-1000

→ 15-year OmniCube® traffic sign warranty
→ 12-year high intensity prismatic traffic sign warranty
→ 10-year custom color warranty

Goodbye Screenprinting

→ Eliminate messy ink preparation
→ Reduce direct ink exposure
→ Improved air quality and work environment
→ No need for costly print frames, drying racks, cleaning stations, etc
